THE
ONLY PREPARATION
THAT HAS
Stood the Test of Years,
And grows more and more popular every day!

AND testimonials new and almost without number, might be given from ladies and gentlemen in all grades of society whose united testimony none could resist that Prof. Wood's Hair Restorative will restore the bald and gray, and preserve the hair of the youth to old age in all its youthful beauty.

BATTLE CREEK, Mich., Dec. 21, 1858.
Prof. Wood—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative about the first of August last. I have faithfully followed the directions and the bald spot is now covered with hair thick and black, though short. It is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle and receive to thyself the scripture declaration—the reward is to those that are kind to the widow and the fatherless.
Thy friend, SUSANNAH KIRBY.

LIGONIER, Noble Co., Indiana, Feb. 5th, 1859.
Prof. O. J. Wood—Dear Sir: In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair from a cause unknown to me, commenced falling off very rapidly, so that in the short space of six months the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana, my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until fortunately in the latter part of the year 1857, your Restorative was recommended to me by a druggist as being the most reliable Hair Restorative in use. I tried one bottle and found to my great satisfaction that it was producing the desired effect. Since that time I have used seven dollars' worth of your Restorative, and as a result have a rich coat of very soft black hair which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who I am happy to inform you are using it with like effect.
Very respectfully yours, A. M. LATTA,
Attorney and Counsellor at Law.

The Restorative is put up in bottles of three sizes, viz: large, medium and small. The small holds ½ a pint and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion and retails for three dollars.
O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market St., St. Louis, Mo. and sold by all Druggists and Fancy Goods Dealers.

DR SWEET'S
Infallible Liniment,
—THE—
Great External Remedy
For Rheumatism, Gout, Neuralgia, Lumbago, Stiff Neck and Joints, Sprains, Bruises, Cuts and Wounds, Piles, Headache, and all Rheumatic and Nervous Disorders.

FOR all of which it is a speedy and certain remedy, and never fails. This Liniment is prepared from the recipe of Dr. Stephen Sweet, of Connecticut, the famous bone setter, and has been used in his practice for more than twenty years with the most astonishing success.

AS AN ALLEVIATOR OF PAIN it is unrivalled by any preparation before the public, of which the most skeptical may be convinced by a single trial.

This Liniment will cure rapidly and radically RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used it has never been known to fail.

FOR NEURALGIA it will afford immediate relief in every case, however distressing.

It will relieve the worst cases of HEADACHE in three minutes and is warranted to do it.

TOOTHACHE also will it cure instantly.

FOR NERVOUS DEBILITY and GENERAL LASSITUDE arising from imprudence or excess, this Liniment is a most happy and unfailing remedy. Acting directly upon the nervous tissues, it strengthens and revivifies the system and restores it to elasticity and vigor.

FOR PILES—As an external remedy, we claim that it is the best known, and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial, for it will not fail to afford immediate relief, and in a majority of cases will effect a radical cure.

QUINSY AND SORE THROAT are sometimes extremely malignant and dangerous, but a timely application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected. The worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, ULCERS, BURNS AND SCALDS yield readily to the wonderful healing properties of DR. SWEET'S INFALLIBLE LINIMENT, when used according to directions. Also CHILBLAINS, FROSTED FEET and INSECT BITES AND STINGS.

Every Horse Owner
should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

Over four hundred voluntary testimonials to the wonderful curative powers of this Liniment have been received within the last two years, and many of them from persons in the highest ranks of life.

CAUTION
To avoid imposition, observe the signature and likeness of Dr. Stephen Sweet on every label, and also "Stephen Sweet's Infallible Liniment" blown in the glass of each bottle, without which none are genuine. RICHARDSON & CO.,

A CARD.
THE AMERICAN WATCH COMPANY of Waltham, Mass., begs to call the attention of the public to the following emphatic recommendation of Waltham Watches which has been politely given by the leading practical Watchmakers and Jewellers throughout the United States. The entire list of signatures to it, even in the Eastern States, is quite too long for publication in one advertisement, but the names presented will be recognized by those acquainted with the Trade in this vicinity as being in the highest degree respectable and influential. At their establishments may always be found the genuine watches of the Company's manufacture in great variety and at uniform prices.
Signatures from many cities and towns of New England not fully represented in this list will appear in a future advertisement.

To the Public.
THE UNDERSIGNED practical Watchmakers and dealers in Watches, having bought and sold American Watches for a number of years past, and having dealt in all kinds of foreign watches for a much longer period of time, beg to state that they have never dealt in watches which as a class, or in individual instances, have been more satisfactory to themselves and customers, whether in respect of durability, beauty of finish, mathematically correct proportions, accurate compensation and adjustment, or of fine time-keeping results, than those manufactured by the Waltham Company.

WEEKS MAGIC COMPOUND

A Safe and Speedy Remedy
—FOR—
Coughs, Croup, Asthma, Whooping Cough, Sore Throat,
and all Diseases of the Throat and Lungs.

READ THE FOLLOWING
From Hon. Levi Underwood, Lieutenant Governor of Vermont.
Messrs. E. B. Macoon & Co.—I have used your WEEKS MAGIC COMPOUND for severe colds and sore throats and it has proved an efficient remedy. It is a valuable accession to the list of remedies for colds, coughs, &c. I am &c. yours,
LEVI UNDERWOOD.
Burlington Oct. 4th 1860.

From Hon. Joseph Poland, State Senator of Vt.
I have used your WEEKS' MAGIC COMPOUND in my family and have never found any remedy so effectual in curing coughs and sore throat and other diseases of the lungs. JOSEPH POLAND.
Montpelier Oct. 1, 1860.

From Hon. Timothy Redfield, late State Senator of Vt.
By using your WEEKS MAGIC COMPOUND a short time I was entirely cured of one of the severest and most obstinate colds upon my lungs that I ever experienced. I know of no remedy equal to it for coughs and lung complaints generally.
TIMOTHY P. REDFIELD.
Montpelier Oct. 13, 1860.

From Rev. F. B. Smith, D. D., Principal of New Hampton Institution.
The MAGIC COMPOUND which you furnished me last spring when I was suffering most severely from the effects of a long continued cold upon my lungs acted like a charm. The first night after taking it I coughed less and slept better than for weeks before, and the use of it finally removed the difficulty entirely. I should use it again in preference to any medicine I have tried when similarly afflicted. Yours truly, E. B. SMITH.
Fairfax Vermont, April 24, 1860.

CROUP.
A short time since my child was attacked most severely with the croup. We thought she would not live five minutes. A single dose of WEEKS MAGIC COMPOUND relieved her at once, and she has had no attack of it since. I think no family should be without it. M. F. VARNEY,

COUGH BALSAM!
Has been found by experience, to be the Best Remedy for the various Diseases of the Lungs and Throat, such as
Asthma, Bronchitis, Consumption, Croup, Influenza, Pleurisy, Pneumonia or Inflammation of the Lungs and Whooping Cough.

IN those Complaints this Medicine has no superior, and while thus efficacious it is perfectly safe to administer to persons of all ages.

At all times of the year this Balsam is found useful, especially in the Autumn, Winter and Spring, and many colds and coughs which if neglected might finally prove fatal, may be CURED at once by a few doses of this invaluable remedy.

This Cough Balsam possesses the twofold advantage of being at once valuable as a curative and invaluable as a preventive of all the diseases of the Throat, Lungs and Bronchia.

In ASTHMA, however violent and distressing, this Balsam gives prompt relief.

In BRONCHITIS and PNEUMONIA it relieves the irritation, loosens the Cough and promotes a favorable expectoration.

In CROUP its powers are almost magical. This insidious disease coming literally like a thief in the night, may be speedily and effectually arrested by a few timely doses of this Balsam.

In WHOOPING COUGH it moderates the paroxysms, prevents the disease from assuming its severest and dangerous form and shortens its course.

Every family should keep it in the house and thus avoid the danger as well as the cost occasioned by sending out for the medicine when needed for immediate use.

The best recommendation for a good medicine is found in its use. If the following certificate from one who has used it does not give you confidence in it, try one bottle for yourself and you will be convinced. It will cost you but twenty-five cents, and may save you as many dollars in time and doctor's bills.

DIXMONT, Oct. 29, 1859.
Dr. Warren: Dear Sir—I have used your Cough Balsam in my practice for the year past, and can say that it is all that it is recommended to be, having never failed in affording relief whenever I have given it. G. H. DAY, M. D.

Magnificent Silence

The New York World closes an article on the position of General Scott, who has seen fit during this campaign, as previously, to keep his own counsels, as follows:

For weeks past General Scott has been badgered almost daily by the comment, the censure, nay—hardest of all to bear—even the advice of some very excellent newspapers in this and other cities. They first discovered that he was an older man than he was when he was younger, and, having found out this, they aired their newly acquired information at the earliest opportunity. They then went on to reason that, because he was older, he was less competent than heretofore—judging in this respect, probably, by their own experience of the effect of increasing age. His plans were pronounced deficient in vigor, his purposes in promptitude, and above all, he did not meet the expectations of the people. Nay, so supine was he found, that the question was even asked, Are we sure that he is loyal?

Hard accusations these to bear with equanimity, reiterated every day as they were in all the varied forms which editorial ingenuity could give them, worked into the very daily thoughts and excited apprehensions of the people whose service their subject was giving the last years of a long and nobly spent life. And yet how calmly they have been borne.

* * * * It is not every general who has a hundred thousand men at his back, and who has absolute power to say, "Past this line no man shall go, except by my permission," who would allow the correspondents and the reporters of papers pestilent with the plausible criticisms of brilliant ignorance, to infest bureaus and camps, extorting from reluctant officials disconnected facts to be used as premises for a damaging conclusion. Had General Scott a month ago exhibited anger at the manner in which his conduct of the opening of the campaign was criticised, he would have merely shown that he was human. But so far from this, this has not even ruffled him.

* * * * People whose memories reach back fifteen years will recollect that Gen. Scott, when he urged ... the Mexican campaign, would not budge from Washington until he had secured all ... the men and the provisions that he judged were necessary. Then as now there was an outcry against his delay by people whose notion of war was a regiment of men mustered to-day, in the field to-morrow, and fighting a pitched battle on the day after. But in this he was silent and imperturbable. He perfected his plans, completed his preparations as far as possible, and then moved steadily on from victory to victory. Against such a man, faithful to his country from his youth up to hoary age, the charge that he has no plan of campaign because he does not reveal it, and that because he is not fighting small battles, he is not mastering the enemies of his country, ... falls to the ground as the spoil flaw ... the pigmies ... piled up on the Delectable Mountains."

THE SHIRT-TAIL RACES. ... giving an account of the ... forces at Philippi says:

Our forces and others ... with ... the afternoon ... great a hurry about taking their heels ... such perilous ... as putting on their clothes. Hundreds of gallant ... it is positively asserted, started off at full ... in but a single garment. In fact, the boys persist in giving the flight but two names—the one "The Philippi Races," and the other "The Shirt-tail Retreat." Farmers living half a dozen miles or more South of Philippi, who since come in with the elements that had ... tell ... came up to their doors begging for pairs of breeches to cover the nakedness, and one man ... states that their commander, Col. Porterfield, came to his house in precisely the same condition with so many of the rest of them.

The same writer speaks of the ... charge of Col. Lander as follows:

When the rebels began to run, Col. Lander, (of California locking grizzly bear and Potter Pryor notoriety) could no longer contain himself at his post, on the brow of the hill with the artillery. The hill is so steep ... that in his sane moments would ... think of ... going either down or up it. But down Col. Lander plunged, at a break neck gallop, leaped ... the ... fell off, thundered through the bridge, ... at the heels of the charging infantry, and ... through the streets in advance of the column to look after the baggage of the rebels.

NOVEL INVENTION OF A CANNON.—A new revolving cannon is described in the Scientific American, which is decidedly novel in principle, and is a great curiosity, to say the least. It is thus described by the inventor at a meeting of the Polytechnic Association of the American Institute:

"In the revolving cannon of which this is a model my main ... was to ... the entire ... everywhere. Six chambers form the breech of the cannon, and after ... has been discharged and the cannon is ... it is open at both ends, so that the gas which ... been in the chamber can ... the draft or vent ... through it. At the next turn, the chamber is left free to be swabbed out by the gunner, &c. There are always four chambers open to the air, so that each chamber is cooling through four successive discharges before it is reloaded. The next thing to be done is to secure ventilation of the barrel, which remains fixed. To accomplish this I have hit upon a very strange device. It occurred to me that the object of the barrel being chiefly to give direction to the shot, it was not necessary for it to be closed. I have therefore removed ... the barrel only the bars constituting the rifling of the cannon, keeping them in place by surrounding them at proper intervals with rings. These bars, of course, will give the same direction to the shot as if the barrel were closed, while the air passes freely through, and therefore the barrel cannot get heated."

THE DAILY CALIFORNIA MAIL.—The California mails are now forwarded daily by the overland route. No change has been made in the postage of letters and newspapers. The new arrangement is satisfactory to the people of California, as they have long desired the increased postal facilities now afforded to them.

A very obliging person is the boarding house keeper who advertises in The Herald—"Single gentlemen furnished with pleasant rooms, also one or two gentlemen with wives." This is a match for the steamboat captain's card of water excursion—"Tickets 25 cents. Children half price—to be had at the landing."

The Voice of the Loyal Democracy.

We present below a few extracts from that class of democratic papers which represent the main body of the party in this State It will be seen that they utterly repudiate the call for the Traitors Convention in this city, made on the basis of opposition to the war—and declare themselves in favor of sustaining the Government We might extend our extracts so as to include nearly all the democratic papers of the State, but space will not permit.

From the Bath Times

They (the loyal Democrats) want to know wh ther they are expected to sit down in council with traitors—with men who have betrayed them once and may do it again if opportunity is afforded Are the men attended to to go into that Convention without repentance—without an abjuration of past infidelity and a renewal of their pledges of fidelity? And, more than this we wish to know in behalf of loyal Democrats —loyal to their country, its Union, its Flag and its Constitution—what is to be the recognized *test* of democracy in that Convention, who is qualified for its solemn duties, and what the qualification is?

We ask this question because a test has already been laid down and that, too, with the air of authority *Marcellus Emery*, Chairman of the State Committee of the *new* organization in a recent number of the Bangor Democrat, says

"A Convention is to be held In the meetings for the choice of delegates to that Convention every man with whatever party he has been connected heretofore *who desires to make opposition to the war the paramount issue of the campaign WILL BE WELCOME AND THERE CAN VOTE AND ACT*

We will if they boast their success on rag and inscribe upon it fidelity to the war give them credit for a degree of assurance which we had not accorded even to them closely related as we have supposed them to be to an old fellow who once made a tender of "all the kingdoms of the world" for one single act of homage done to himself For one we would like to see the campaign carried on—if we must have one—upon the only distinct issue before the country the *support of the war* for the Constitution and the Union or *hostility to that war*, and active sympathy with treason We want to see this issue distinctly made Draw the lines Pull the house. Let the patriotic people go on one side and the traitors upon the other One thing is sure treason must go to the wall, traitors whether in Maine or South Carolina will have to bend to the law and the Constitution, or do worse!

The Bath Times again says

We rejoice sincerely that a final and eternal separation is by fair to be made between the disorganizers and the loyal portion of the Democratic party

From the Augusta Age

The Committee propose to run the machine in OPPOSITION TO THIS UNHOLY CIVIL WAR and in favor of the *immediate restoration of peace* by negotiation and compromise — There is not probably a man in the democratic party who is not opposed to the civil war — who does not regard it as an unholy one and who is not in favor of the immediate restoration of peace. But these facts do not change our duties in the premises For this "unholy civil war was inaugurated by the Southern insurgents who can quit it at any moment by returning peaceably to their several places of abode and rendering due obedience to the Constitution and laws of their country, and until they do so it must be met and put down just as the government is now meeting and putting it down That the Government will succeed in doing so—and that right speedily—is the prayer of every loyal American citizen

From the Rockland Democrat

The Bangor Democrat takes offence at our remarks last week against the secession Convention The quickness with which it caught the matter up is the best evidence of the correctness of the article at which it is offended A secession convention in Maine will be but a second edition of the Hartford convention —worse than that, for we have the infamy which attached the participators in that to warn against a repetition

From the Democratic Advocate, (Lewiston)

To preserve the Union we must stand by the constitutionally elected authorities. They must receive our support, not as partizans but as patriots There is no other course There can be no other course Loyalty to the Union demands that we be loyal to the President, who is the constitutional head of the Union

Holding these views we cannot therefore, respond to the call issued by the Breckinridge State Committee for a Democratic State Convention to be held in Bangor on the 15th day of August next.

Whoever participates in that Convention under that call must acknowledge the right on the part of a State to secede from the Federal Compact

The right of secession is not found in the Constitution neither directly nor by implication, nor does the history of the times show that its framers ever gave or wished to give such an interpretation to that instrument

☞ We have a letter from Portland containing some charges against the managers of the celebration there of neglecting to provide either dinner or refreshments for the troops of the Sixth Regiment, who made the display, and who marched several hours through the burning heat We do not know how true these charges are although we have heard them from another source

Letter from Washington

WASHINGTON, July 5, 1861

To the Whig & Courier

GENTS,—Yesterday was a memorable 4th of July in Washington, and in history it must prove so to the nation and the world.

Twenty thousand earnest men, under arms and for such a purpose, at a single review, is, I trust, an occasion of a life time God grant that no enmity to Constitutional liberty from either North or South may again make it necessary

The display was an imposing one, and I understand very satisfactory to Gen Scott It is preparatory to a further movement into Virginia This movement has been gradually going on as regiments become disciplined and fit for actual service. To this end the 2d Maine Regiment (as you may learn before getting this) was on the 2d inst. moved forward to Falls Church in Virginia, the *advance* guard on the Fairfax Road

I had the pleasure of visiting them there The health of the Regiment is good their spirits never better Their position is a proud one *Dirigo* is written on every countenance And why shouldn't Maine troops lead as her motto indicates—and if so none are better fitted than the gallant 2d

Three Connecticut Regiments are encamped immediately behind the Maine and within two or three miles Great pains is taken to guard against surprise And when the several Colonels yesterday, made arrangements for fully picketing the outposts and avenues, two companies of the Maine were to advance *within the hearing of the enemy's drums* So eager were the men for the post of danger that it was difficult for the officers to decide who should *not* go

The present encampment is a delightful one—an *inspired* spot full of remembrances Falls Church is situated on the Pike Road from Alexandria, north westwardly to the interior of the State and about twelve westwardly from Washington

I found the surface of the county agreeably diversified with hills and valleys, quite irregular and largely covered with wood, the farms rather interspersed than otherwise the soil naturally good and the climate healthy Immediately about the Church are a number of farms owned mostly by New England men These farms have lately been reclaimed from a condition of exhaustion and abandonment It was originally a tobacco growing region exhausted and abandoned near a hundred years ago The Church was built in 1709 of brick brought from England And there the immortal Washington used to attend church and was one of its vestrymen

Two weeks ago it was occupied by the rebels Yesterday the Maine boys raised a flag staff and threw the star and stripes to the morning breeze, seeing which, a gallant officer of one of the Connecticut regiments, Capt Varian, rode up and humorously enquired of Lieut Col Roberts, then in command, if he had the hardihood to thus desecrate Virginia soil, and at the same time asking the privilege of saluting the flag The offer was readily accepted, a cannon brought upon the spot and Old Virginia never berated to the tune of *thirty four* rounds beneath the stars and stripes Nothing less than thirty four would answer The Union "one and indivisible —the *Nation* in its entirety is the least that will satisfy our soldiers

It required but a small part of the faith of modern spiritualists to believe that the spirit of Washington was again there invoking a benediction upon the flag of his creation the country of his love, and upon their gallant defenders

Letters will still reach the 2d Regiment if directed to Washington STOCKTON

STATE OF THE ARMY From the report of the Secretary of War we take the following statement of the numbers and organization of our military forces at the present time

The total force now in the field may be computed as follows

Regulars and volunteers for three months and for the war 65,000
Additional thirty five regiments of volunteers for the war accepted and organizing 35,000
Add new regiments of regular army 40,000
Total force now at command of the Government, 140,000
Deduct the three months volunteers 90,000
Force for service after the withdrawal of the three months men 220,000

It will thus be perceived that after the discharge of the three months troops there will be still an available force of volunteers amounting to 188 000 which added to the regular army will constitute a total force of 229 000 officers and men

The following extract from a private letter of an intelligent gentleman, published in the Charleston Courier, furnishes interesting and (if true) important information relative to the number of rebel troops in Virginia, which it would seem has been greatly overrated

MANASSAS JUNCTION June 23 1861

I think the military question is, which will force the other to attack? The enemy is at Falls Church between Fairfax Court House and Washington with about five thousand men Gregg and Kershaw are at Fairfax The enemy make a dash at Fairfax, or Fairfax may make a dash at Falls Church But I think neither is yet ready Scott has the number and the munitions, but wants also be advantage of position if he can get it. He seems indisposed to risk his troops against ours on any thing like equality in any respect He wants odds every way and in every particular The only forces to be apprehended on fair terms are those of the regular United States army, with their drill *esprit de corps* and West Point officers These are probably the troops that will be put forward at the head of a column of 45 000 to operate against us here. If that be done, the fighting will be of a desperate character The Southern troops here will assuredly all stand up to the rack

Our force is less than has been supposed Two days ago it consisted of only about 7000, and so also are all our forces at other points smaller than is supposed Johnson, when he evacuated Harper's Ferry, had not more than 7000 effective men Two thousand joined him about that time, and in one way and another he has now a force of about 10,000 men It was a military necessity and he is the man to make the most of it These facts account for all the reiterating and apparent indecision to meet the foe. Their invasion of Virginia, and our inability to repel them has been the result of the strange notion that we are engaged in a five years' war, and of the consequent policy of rejecting six weeks age at Montgomery, more than 100,000 troops offered for twelve months.

☞ On Saturday afternoon, June 29th, a large and beautiful American banner, 28 x 10 was raised in the public square at Kenduskeag upon a handsome flag one hundred feet high There was a large convocation with music by the East Corinth Brass Band Mr James Hilton, one of the oldest citizens of the town did the raising Hon S H Blake, of this city, made an excellent and patriotic speech on the occasion

THE FOURTH AT LINCOLN The celebration of the glorious Fourth at Lincoln was in every way a general success The day was splendid and the people overflowed with patriotic sentiments At an early hour of the morning the fantasticals made a comical display of their patriotism in a long line of cavalry, in which the horse and his rider vied with each other in the grotesqueness of their decorations, and was particularly marked by carrying the figure of Jeff Davis undergoing the horrors of a continual crucifixion At 10 o'clock the procession was formed and marched to Trinity Chapel under the impression of martial music and the firing of cannon The Chapel recently repaired and fitted up under the lead of its energetic pastor Rev H C Herrick was filled to overflowing by the citizens and strangers walking in the procession The oration by Rev Dr Tefft, of Bangor was entirely extemporaneous but was pronounced by all to be of rare ability of conception and eloquence of delivery, far beyond their highest anticipations The topic on which he was requested to speak was THE STATE OF OUR COUNTRY, and when I report what his leading points were—*Our Country—Our Country Hated—Our Country Wounded—Our Country Reunited*—it will not be impossible for those accustomed to hear him to imagine with what originality and power he would treat such a subject The discourse was preceded and followed by good music and a perfect shower of applause from the audience Upon the conclusion of the services the procession was reformed and marched to Coburn's Hotel and partook of a sumptuous repast which was followed by regular and volunteer toasts of a patriotic character, accompanied by frequent salutes of artillery and washed down by cool lemonade The table was dismissed by an eloquent speech from the Chairman of the day A G Rowell Esq, who, with the Marshal S C Rundlett Esq, and his assistants, J C Emerson, H C Hall and V P Lidcomb, performed their part to the general satisfaction

It was, all in all, the most successful and satisfactory public day ever known in Lincoln

Lincoln July 5th, 1861 M

A FOOLISH OPERATION A man belonging in Portland attempted on Friday to ford the Stroudwater River at Standish Village, with a horse and trotting gig, regardless of the advice of persons on the bank, who told him the water was from 8 to 10 feet deep When a little way across, the gig sank beneath the driver in pushing the progress of the horse. The man then swam out and took the horse by the head, but observing his pocket book floating on the water, he left the horse and went to recover it and then swam to the opposite shore In the meantime the gig overturned, and cast the horse, and before assistance could be rendered, the horse, a valuable one, was drowned The man barely escaped sharing the same fate

☞ Dr James Fogg, of Limerick died very suddenly on the morning of the 2d inst He returned home about 6 o'clock in the morning and was found dead in his carriage—in the stable He was about 60 years old, and much esteemed

☞ A doubtful letter has been received from the First Regiment, dated July 4th, stating that Cornelius B Coe and Alonzo H Quimby, privates in Co E, both of Portland, while on the picket guard, were wound d and taken prisoners by the Virginia Mounted Rifles

☞ Samuel Ernest, oldest son of Rev S F Dike, of Bath, aged 16 years, was drowned on Saturday afternoon, near the City Flour Mill while bathing

THE MAINE TROOPS A letter to the Kennebec Journal says

"It would be supererogation for me to do more than barely mention the fact that the Maine Regiments have a reputation here which makes us all feel proud They are as fine looking, well conducted and reliable a body of men as ever shouldered a musket or kept step to music The officers of the Regular Army who have visited them speak in terms of the most enthusiastic admiration of their soldierly qualities—combining as they do moral and physical requisites, to sustain a man under difficulties and dangers"

A letter from Lord John Russell, sent by the last steamer and received by one of the highest Government officials, states that the Southern Commissioners had been refused an audience by the English Government.

OUR BOYS IN ADVANCE —A correspondent of the Boston Journal who visited our Regiment at Falls Church on the 4th, says,

Almost cordial welcome was extended to your correspondent by Col. Jameson, and all the officers of the 2d regiment of Maine volunteers. It was evening dress parade when I arrived, and the last rays of the setting sun gleamed from the long lines of bristling bayonets.

After parade the men sat down on the grass, new mown, and read letters from home brought by the mail boy After the letters, there were merry songs but notwithstanding the cheerfulness, there was a feeling of soberness, arising from a sense that they were in the most advanced position, and the pickets which were then going out were to stand face to face with those of the rebels—perhaps before morning to herald the advance of Beauregard Col. Jameson is not to be caught unprepared 'Sleep with your boots on,' he says to his boys "Quarter master, deal out twenty rounds per man," and the men fall in by companies and receive their ammunition

There comes a sergeant who wants to be detailed to go out with the picket to night Is there anything going to happen he wants to be there 'No not to night I want you for something else' says the Colonel The brave fellow turns away with a shadow of disappointment on his face Beauregard beware of the boys of down East! The sober determination which is setting upon these men to-night is a color which will not run only at double quick to the advance

NIGHT IN THE CAMP

It is half past 9 and the lights are all extinguished There is no noise but the shrill chirp of the crickets and those nocturnal sounds which come from forest and field

The sentinels move along their beats as if shod with velvet slippers By the light of the stars I can see the forms of the vigilant watchers moving slowly like phantoms through the darkness Eleven o'clock and all is quiet Varian's battery is out on picket toward Fairfax, a short distance, if Beauregard advances the thunder of these pieces will let us know it — Quartermaster Lord has loaded his pistols and says he will see we can get them and so with mostly rasped straw from the wheat field for bed, nothing ours I assure you but a blanket, we sleep—the sentinels the stars, looking down from their azure heights, and Him who made them keeping watch and ward

THE WAR SPIRIT AT THE WEST A friend who has just returned from the West relates an incident which illustrates the spirit of patriotism prevailing in that section Stopping in a little town of apparently but a few hundred inhabitants, our friend inquired if any volunteers had gone to the war from that town "I reckon there has stranger We've sent two companies and have got another mad as hornets because he went"

THE COMET OF 1861 The Philadelphia Press thinks the comet now visible is probably the one which appeared in 1556 known as the Comet of the Fifth comet, from the fact that it was observed by his astronomer Paul Fabricius and made such a deep impression upon him and those around with him that it is supposed it have hastened his abdication — He died the next year supposing that 1264 the period of its recurrence being about 300 years

The planet of 1264 was of great magnitude and rendered much excitement It was seen on the forenoon of the first day and illuminated its whole train of brilliancy on the latter part of August The tail was one hundred degrees in length and appeared curved, in the form of a sabre It was last seen on the evening of the 1st October, the date of the death of Pope Urban IV, with which event it was supposed to have had some mysterious connection

Presuming that it was the same comet of 976, 1264 and 1556 many calculations have been made as to the time of its reappearance Dr Halley supposed it would be visible in 1848 Mr Bouvard supposed its perihelion would be reached on the 22d of August 1840 On the first appearance of the comet of 1859 it was again known that it was the comet of 1556 but the computations which were made respecting its orbit show that the period of its revolution was not 4000 years so that it could not have been known by any of the former observers

From the New York World's Martinsburg correspondence we take the following account of the march of Gen Patterson's column into Virginia on the morning of Tuesday last Just Mullen's doubtful Rangers composed the advance guard, and a strong rear guard was detailed by the commanders of each division

No picnic party ever went to the woods with greater delight than was exhibited by our men and with as little parade Through the river side Harding occupied about seven miles Three regiments of hard legged men were certainly to be seen, one just emerging from the water and running up for the march, in other looking like school boys in the morning, and a third standing with impatient readiness for their turn to come Some had rolled up only one trouser leg, others stripped off all but shoes and socks

Old stunning hay forks were pressed into service to support shoes, pantaloons pockets and cargo haversacks Newspapers, pet pipes and terrible hatters and the picture presented by such an odd array for short trips in straggling squads, to close order and all to bring up and down was their carrier a foothold was momentarily lost and regained the picture I repeat was grotesquely awkward The men rolled and tore another's outré appearance cheered as they plunged into the clear stream, and raised an echoing chorus of miscellaneous songs "Dixie" "Carry me back to Ole Virginny" "Red, White and Blue," and as many more were sung with a Pennsylvania Dutch, American slang, and ever rich Milesian accent

THE CAPTAIN'S PUDDING —The following story is told of a Yankee captain and his mate Whenever there was a plum pudding made, by the captain's orders all the plums were put in one end of it, and that end placed next to the captain, who, after helping himself passed on to the mate, who never found any plums in his part of it. After this game had been played some time, the mate prevailed on the steward to place the end which had no plums in it next to the captain

The captain no sooner perceived that the pudding had the wrong end towards him, than picking up the dish, and turning it round, as if to examine the china he said

'This dish cost me two shillings in Liverpool,' and put it down, as if without design, with the plum end next to himself

'Is it possible?' said the mate, taking up the dish 'I should suppose it was worth more than a shilling!' And in an perfect innocence, he put the dish with the plums next to himself

The captain looked at the mate, the mate looked at the captain The captain laughed, the mate laughed

'I'll tell you what, young one,' said the captain, 'you've found me out, so we will just cut the pudding lengthwise this time, and have the plums fairly distributed hereafter"

Despatch to the Boston Journal

WASHINGTON, July 8

About one hundred Garibaldians who went over into Virginia to day, owing to some disaffection, mutinied, and returned to Washington this evening in a state of great excitement — Troops are now being turned out to apprehend them. They will be shot down if they do not yield.

Having a knowledge of the fortunes of Tailoring and a practical experience of thirty years in the business and having myself proved that to say to customers that we can sell the Retail Trade at the same prices that Jobbers do is a simple Fraud yet the CASH SYSTEM is better for the customer who expects to pay for his garment as it can not be lost by bad debts under the credit system is divided between the paying and the non paying and as with the cash system I can sell at from 10 to 20 per cent less than those who do a credit business, consequently I will invite all those paying customers to examine the Stock of Goods now on hand and see if the prices are not 10 per cent less than many other Clothing Houses in the city The Cutting Department is under the charge of

NEW YORK, 9th

A despatch to the Post says that the mutineers of the Garibaldi Guard this morning were surrounded by the President's mounted Guard, two companies of regular cavalry, two of infantry and a company of the District militia and were forced to lay down their arms. They were imprisoned in the Treasury building.

Gen. Scott has strictly prohibited the transmission of army movements from this city.

The Washington Star extra, says Taylor who came here with a flag of truce, says his business was disposed of at the White House in a very few minutes as he was sent back by Gen Scott with one letter less than he bore, the President not deeming the communication he brought, such as required him to enter into any communication whatever with Jeff Davis. Taylor immediately faced about and marched back to McDowell's head quarters where though courteously and kindly treated was kept under strict guard until early this morning when he was escorted back to the lines and turned loose to find his way back to Beauregard, without having accomplished what was evidently the main point of his mission, viz: to communicate with the traitors in our midst who had fully prepared to send to Beauregard, through him, important information concerning the all [illegible] contemplated movement of McDowell's army.

The Star further says, although the President has communicated the exact contents of Davis letter to none but his constitutional advisers and General Scott, from certain signs we are able to state that it amounted to nothing of importance to the present crisis.

ST JOHNS N F, 9th

A steamship supposed to be the Canada for Halifax passed Cape Race at 1 o'clock P. M., on Monday. The fog was very thick, and the steamer blowing whistle all the time and the News Yacht, although running in close to her paddles was not observed and failed to obtain the news report for the Associated Press.

PROVINCETOWN, 9th

The school ship Massachusetts, Capt Matthews arrived here at [illegible] o'clock this afternoon from Plymouth—all in good health. She made the passage from Plymouth in two hours and ten minutes.

OSWEGO N Y, 9th

A fire here today, destroyed an engine house and other property, to the amount of $3000.

INDEPENDENCE, Mo 9th

The Santa Fe mail arrived today.

News from Mesilla confirm the report of Indian trouble at Pinos Altos, and a bad position on the part of the Indians to remain quiet.

Owing to political troubles in the State, orders have been sent to Mr Clark agent of the Stephenson silver mine to stop all operations.

The forts along the Texas frontier are all to be garrisoned, by order of Col Van Dorn. Two companies are to be stationed at Fort Davis, one at Fort Quitman, and four at Fort Bliss.

NEW YORK 9th

The prize brig Triton, of Indianola, arrived today from Congo. She was seized by the sloop of war Constellation, on suspicion that she was about to take on board a cargo of slaves, having on board all the the necessary outfit.

LEAVENWORTH, 8th

Capt Van Vliet of the army has been ordered east for service in the field.

A 3d regiment of Kansas troops is forming at Mound City.

OMAHA, 8th

Steamer Chippewa bound to Washington Territory with government freight and supplies for the American Fur Company and having on board 170 kegs of powder, was discovered to be on fire, on the [illegible] of June, above the mouth of the Yellow Stone. The boat was abandoned and she became a total loss, together with her cargo.

CHICAGO 9th

The loss by the tornado at Rockford was $5500. Considerable damage was done to the crops in the vicinity. No lives were lost.

BUCHANAN Va, 9th

A Courier from Weston reports that Col Tyler of the 7th Ohio had succeeded in throwing one company of his regiment into Glenville, last night with provisions for the companies of the 17th and the 8th Ohio regiments, and is now waiting the arrival of the 10th Ohio to attack Gen Wise.

Gen McClellan left Middle Fork Bridge, where he was encamped last night, early this morning, with the evident design of reaching a point 20 miles east of here, where the rebels are reported in large force, and strongly entrenched.

WHEELING, Va, 9th

This afternoon John J Carlisle was unanimously elected U S Senator for the long term in place of Hunter, and W T Willey of Monongahela, in place of Mason, for the short term. Election for various State officers took place today. The new government is now under full headway and its recognition is gradually extending over Western Virginia.

MARTINSBURG, Va, 9th

Two deserters from Gen Johnson's camp came in Saturday. They estimate Johnson's force at 15,000 with 23 pieces of artillery. Reliable information has since been received that General Johnson had been reinforced from Manassas Junction with 6 regiments and one piece of artillery.

The 16th Pennsylvania pickets took five horses and three rebel troops this afternoon.

Farmers near Hainesville showed us the graves of ten rebels killed in the late fight, and found by them in the woods horribly mutilated by exploded shells from Perkin's howitzers. The staff estimate the number of the enemy killed wounded and at 60, but I do not make it so large. They say one of the wounded at Hainesville declared to his officers that he had not fired during the engagement, and showed the nipple of his gun which was closed up with lead.

We have a rumor here this evening which was received with great enthusiasm, that Gen McClellan had routed Gen Wise at Buckhannon and Laurel Hill.

Reinforcements are now approaching us from Williamsport which will give an available force of 20,000 men to move forward with, and we may expect a forward movement in 24 hours—Our men are all grumbling at the delay, and are eager to move on, but it is believed Gen Jackson will fall back to Winchester, and there we will have the first battle.

BALTIMORE, 9th

Special despatch to the Herald reports tonight from Fort McHenry that all is quiet. By order of Secretary Cameron, the limits of the police board has been extended.

WASHINGTON, 9th

Within the last 24 hours the 4th and 5th Maine Regiments and the New York 2d, passed into Virginia.

The steamer Pocahontas has been actively cruising the past week in the neighborhood of Acquia Creek and Mathias Point. At the former place on Saturday she approached within 3000 yards of the Confederate steamer George Page, which lay far up the river, and fired 13 shells into her taking her smoke stack as the target. Those on board were in great commotion, showing that the shots from the Pocahontas were not all ineffectual. While engaged in this duty, the Pocahontas was fired at from the upper rebel battery, but sustained no damage.

The 23d N Y regiment from Ontario county, arrived this evening.

The disaffected soldiers of the 1st German N Y regiment who were yesterday put in jail for refusing the arms allotted to them by the Government have repented of their folly and are now willing to render obedience.

The revolting Garibaldians are still under arrest.

The bill introduced into the House today by Mr Stevens from the Committee on Ways and Means, proposed a loan of $250,000,000.

W B Rochester of Auburn, and Henry Potter Andrews of New York have been appointed additional Paymaster in the army.

LEAVENWORTH, 9th

G W Coffin Superintendent of Indian Affairs for Indian Territory, has arrived. He was unable to penetrate over 115 miles, being threatened with capture by secessionists. His predecessor, Rector, claims to hold the office by virtue of commission from Confederate States since the evacuation of forts by federal troops. Secessionists have gained control of affairs in the Territory and confiscated money and provisions intended for the Indians. A convention of Indians called by Gov Harris of Chickasaws, broke up in a row.

Latest accounts from Maj Sturgis' command are July 4th when they were at Clinton, Henry county, Mo. Command much delayed by high water and made slow progress. A regiment of federal troops arrived at Lexington this morning. The blockade of the river below this city, by order of Gen Lyon was abandoned this evening.

XXXVII CONGRESS—Extra Session

WASHINGTON, 9th

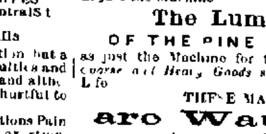
HOUSE.

A message was received from the Senate announcing the death of Mr Douglas, when Messrs Richardson, McClernand, Crittenden, Cox, Dixon, Arnold, Walton of Vt, Law, Wickliffe and Fouke, addressed the House paying eloquent tributes to the memory of the deceased. Appropriate resolutions were passed as a further mark of respect.

Adjourned.

ONE DAY [illegible]

ARRIVAL OF THE



NORTH BRITON, OFF FARTHER POINT

FARTHER POINT, 9th

Steamship North Briton from Liverpool 27th and Londonderry 28th, passed here at 4 30 P M today, en route for Quebec. She brings 180 passengers and $250,000 in specie. She came through the Straits of Belle Isle, and met a great deal of ice.

The following is the latest news telegraphed to Londonderry.

The political advices possesses no feature of special importance.

The French Senate has passed a bill establishing postal services with America.

Napoleon's recognition of the Kingdom of Italy within his approval of the past policy of the Turin Cabinet.

It is stated that the new Sultan of Turkey will make a daring attempt to arouse the long dormant energies of the musselman population, by working on their fanaticism, and that the Christians will be the first to feel the effect of a change of rulers.

There are rumors afloat also that the health of the pope is in much worse condition than the people generally suppose.

It is doubtful whether the Austrian Government will receive the Hungarian deputation. It is quite clear that their question contained in the address will not be granted.

All the London morning papers have leaders on Mr Cobden's speech. The Times says, he modified his views considerably on the subject of national defence, and controverts in a friendly tone some of the opinions on which the Times still differs from him.

The Herald speaks of Mr Cobden as an agent of the Emperor of the French.

The Post says he saw probably no sort of evidence in support of his assertions. The French navy is now largely on the increase. Nor is this the only point at issue. Before many years have passed Spain and Italy may have navies, and a Spanish navy is commonly to be but a French maritime auxiliary.

The Daily News has two leaders on Mr Cobden and his speech.

The Post says it is rumored that either Mr Justice Nightman or Justice Hill will retire to make way for the present Solicitor General and that if that arrangement should be carried out Mr. Randall Palmer will, in all probability, become Attorney General, and either Mr Collier, Mr Miller or Mr Denman, Solicitor General.

The Empress of Austria has gone to Corfu for the recovery of her health. Her departure threw quite a gloom over Vienna.

Liverpool Markets

Cotton Market—The sales for the week were 80,000 bales, including 17,000 to speculators and exporters. The market closed firm and advancing. The sales on Friday were 12,000 bales, including 4,000 to speculators and exporters. The market closed firm at the following authorized quotations. New Orleans, fair 8¾d, middling 8¼, Mobile, fair 8½d, midling 7¾d, upland, fair 8¼, middling 7¼d.

Breadstuffs Market—Breadstuffs steady; Provisions dull.

London, Friday P M.—Consols closed at 90 a 90¼ for money and account. Bullion in the Bank of England increased 249,000 pds.

ALEXANDRIA, 9th

The first passenger train on the Orange & Alexandria Railroad made a trip to Cameron's Run, this morning, with Company A of the Zouaves and Company I of the Michigan 1st Regiment. Cameron's Run is about four miles out, and the farthest point on the road to which our pickets extend.

BALTIMORE, 9th

AN OLD SETTLER GONE. Capt. Joseph Cutts died in Kittery on the 6th inst., at the age of 97 years. He was formerly a merchant in extensive trade but met with reverses, and has been poor for the last quarter of a long life. He was a descendant of the old Cutts family, so eminent among the early settlers on the Piscataqua, and was connected by marriage with the no less eminent Pepperels. He closed his life in the mansion which was built for Lady Pepperell after the death of Sir William—on the 97th anniversary of his birth.

COWHIDED BY A WOMAN. One day last week a well known citizen of this town, received a severe castigation at the hands of a respectable lady, whom he had been in the habit of annoying by his insulting language. He had been in the habit of behaving in an insolent manner toward her for some time, when it became insupportable, and she resolved to take the punishment of the fellow into her own hands. Accordingly she armed herself with a cowhide, and at the time alluded to met him in front of the United States Hotel, where she collared him and gave him some severe cuts across the head and face with her weapon. The affair created some excitement among the bystanders.—*Portland A[illegible]*

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD

And for the speedy cure of the following complaints

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND Ind, 6th June, 1859

J C AYER & CO Gents I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms, sometimes it turned inward and distressed me at the stomach. Two years ago, it broke out on my head and covered my scalp and ears with one sore which was painful and loathsome beyond description. I tried many medicines and several physicians but without much relief from any thing. In fact the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla) for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you that I hold you to be one of the apostles of the age, and remain ever gratefully Yours

SOLUTION OF PROTOXIDE OF IRON COMBINED.

This well known Remedy has been used extensively and with great success for

DYSPEPSIA,

Or Impaired and Imperfect Digestion,

FOR THE CONSEQUENT

DETERIORATION OF THE BLOOD;

AND FOR THE FOLLOWING

FORMS OF DISEASE,

Most of which originate in

DYSPEPSIA

LIVER COMPLAINT, DROPSY, NEURALGIA and NERVOUS AFFECTIONS, LOSS OF APPETITE, HEADACHE, LANGUOR and DEPRESSION of SPIRITS, CARBUNCLES and BOILS, PILES, SCURVY, AFFECTIONS OF THE SKIN, CONSUMPTIVE TENDENCIES, BRONCHITIS, DISEASES PECULIAR TO FEMALES, & ALL COMPLAINTS ACCOMPANIED BY GENERAL DEBILITY, AND REQUIRING

A TONIC AND ALTERATIVE MEDICINE.

Note.—The failure of IRON as a remedy for *Dyspepsia*, a bad state of the blood, and the numerous diseases caused thereby has arisen from the want of such a preparation of Iron as shall enter the stomach in a PROTOXIDE state and assimilate at once with the blood. This want the PERUVIAN SYRUP supplies and it does so in the only form in which it is possible for Iron to enter the circulation. For this reason the PERUVIAN SYRUP often radically cures diseases in which other preparations of Iron and other medicine have been found to be of no avail.

AN equal and normal circulation of the blood is health. An abnormal that is to say an excessive or deficient circulation or stagnation of the blood is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ. Diseases of the Kidneys, Inflammation of the Lungs, Diseases of the Heart, &c., by the same cause viz. Improper Circulation, and from the same cause spring all minor forms of disease. To discover a certain cure then for these diseases the first great enquiry necessarily is What causes the blood to circulate?

For centuries this has been a matter of much study among scientific and medical men and while many experiments have been made and much labor expended upon the enquiry it has been left to this century among its other wonderful increase in knowledge, to make this grand discovery also

Acknowledging that life is the gift of the Creator, and that in Him we live and move and have our being, we still venture the remark that as the planets move in their spheres and all vegetable life is governed by certain absolute laws, so an animal life is traceable to a fixed cause which remove or destroy and death the certain effect follows

Analysis of the red corpuscles of the blood shows them to be compound of iron sulphur and phosphorus

The air we breathe we know to contain a very large proportion of oxygen

Oxygen brought into contact with a metal evolves or causes electricity

Electricity brought in contact with a muscular fiber causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe coming in contact with the iron corpuscles of the blood emits electricity, which coming in contact with the heart causes it to contract, and hence the power which expels the blood and sends it tingling through the remotest arteries. What then are the causes of Consumption, Dropsy, Palsy, Paralysis, St Vitus' Dance, Dyspepsia, Epilepsy, Fever and Ague, &c. a deficiency of the red corpuscles containing the iron sulphur and phosphorus which causes a deficiency of electricity and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and prostration ensue—the whole becomes nervous and subject to rheumatic pains and neuralgia—complaints of the liver and kidneys set in, in short almost every type of disease or virulent fever may be traced to this deficiency in the blood, of the corpuscles or red globule.

PROF. WOOD'S

RESTORATIVE CORDIAL

AND

BLOOD RENOVATOR,

Is precisely what its name indicates, for while pleasant to the taste it is revivifying exhilirating, and strengthening to the vital powers—It also revivifies reinstates and renews the blood in all its original purity and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic and yet so perfectly adapted as to act in perfect accordance with the laws of nature and hence soothe the weakest stomach and tone up the digestive organs and allay all nervous and other irritation. It is also perfectly exhilirating in its effects and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those so combined having powerful tonic and soothing properties as to consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world both by the thoroughly skilled in medical science and also by all who have suffered by debility, for it needs no medical skill or knowledge even to see that debility follows all attacks of disease and lays the unguarded system open to the attacks of many of the most dangerous diseases to which poor humanity is constantly liable. Such for example as the following: Consumption, Bronchitis, Indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypochondria, night sweats, languor, giddiness and all that class of cases so fearfully fatal if unattended to in time, called *female weaknesses and irregularities*. Also liver derangements or torpidity and liver complaints, diseases of the kidneys, scalding or incontinence of the urine, or any general derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough, emaciation, difficulty of breathing, and indeed we might enumerate many more still but we have space only to say, it will not only cure the debility following chills and fever but prevent all attacks arising from Miasmatic influences and cure the diseases at once if already attacked.
